OMNIA EDUCATION PARTNERSHIPS

Sustainable competence - Empowering solutions for training and development

ABOUT OEP

We are the private consulting and training arm of four Finnish non-profit organizations focusing on quality education and humanitarian assistance. We offer competence development solutions that make a difference:

- Consultancy services for the education and training sector,
- Teacher professional development programs for all levels of education,
- Corporate training and support for job creation through entrepreneurship development initiatives.

Our training ranges from short courses to full Finnish vocational qualifications recognized at EU-level.

Omnia Education Partnerships has an impressive history of developing technical and vocational education and training (TVET) with international partners. Our ultimate goal is to support sustainable public - private ecosystems with local impact.

Our cornerstones of quality and impact are:

- Finnish education and training standards & localized content.
- Competency-based training and assessment.
- Finnish interactive training methodology.
- Holistic approach to learning, which aims at blending content and soft skills.
- Blending online and on-site training to promote green and scalable training solutions.

OUR MISSION AND VISION

OEP offers sustainable training solutions for future-proof careers. Our programs offer paths to lifelong learning, job creation and developing as a professional. Consequently, OEP offers global support for public and private sector organizations, present and future professionals, to meet the challenges of the global economy.

OUR VALUES

Quality, Impact and Sustainability.
